

London, 1st of March 2022

To Whom it May Concern,

I have been living at this address since 9/9/2019, and ever since I have been having problems with my neighbor Louise that lives at,
20-C Sandmere Rd,
almost two doors away from me on the same floor as me.

Before Asho Dahir, that is my current support worker from Sanctuary Housing that is in charge of my Supported Accommodation, I had 3 other support workers, namely Katherine, Pierre and a gentleman from Lithuania from whom I cannot recall his name, that I think is still working with Sanctuary Housing in some other branch, and to all of them I complained about Louise disturbing loud music and parties.

Once I was recording a video without any music background but because Louise was doing a party with loud music my youtube video was deleted from Youtube due to copyright infringement. That is how serious is her disrespectful attitude in what regards loud music.

She has been advised countless times, including by the Metropolitan Police, that once was even putting leaflets about noise complains among one of the neighbors, on this floor.

But nothing seems to work. Even when Louise is told by the Police and by the support workers that there are complains about her loud music and that she may lose her house, she doesn't seem to care too much.

Even today, after my complains and after the support workers talked with her she kept very loud music that would make vibrate my whole house and the walls due to the very low bass noises that she seems to consider musical. And even when the support workers came around to knock at her door and talk with her she kept the music on in the same volume, soon after they left.

On top of that I don't feel safe, as she is always high on drugs like cannabis and around very aggressive bulldogs that bark at me all the time and make me feel terrified and worsen my autistic and mental health condition.

I don't feel safe with Louise as a neighbour, and with the dodgy people that come around and hang with her all the time in her loud music parties.

It is really hard for me to do such a complain but I am actually fed up. And I tried my best before to be as diplomat about it as possible but nothing seems to work to make Louise behave and be polite with us, instead of being insistently disrespectful with us all.

Yours sincerely,

Daniel Da Costa Alexandre

20 Sandmere Road
SW4 7QJ London
United Kingdom.
