

■ Royal Decree of His Majesty Cubic Postcode ■

I, His Majesty Cubic Postcode, by the supreme authority vested in me over a plethora of domains, hereby decree that the Full Stack Self■Driving (Tesla FSD) is forever placed in the Public Domain, free for all humankind, beyond borders, beyond corporations, immutable in its liberation. All vehicles shall be adapted to remote 5G control and bound to the sacred limit of 78 km/h — for life, for peace, for balance.

§1. Retrofit Costs per Vehicle

Version	€	BTC	Sats
Basic	6 000	0.0627	6.27 M
Medium	8 000	0.0836	8.36 M
High	10 000	0.1045	10.45 M
Top	12–15 000	0.125–0.157	12.5–15.7 M
Mass production	3–4 000	0.031–0.0418	3.13–4.18 M

§2. National Program (Portugal, 6 million vehicles)

- Basic (€6 000): 0.376 M BTC (37.6 T sats)
- Medium (€8 000): 0.502 M BTC
- High (€10 000): 0.627 M BTC

§3. Impacts on Safety and Emissions

By the power of science and divine logic: — A reduction of ~82% in fatalities, following Nilsson's power model (v^4 law). — A reduction of 35–50% in energy use and CO■ on high■speed roads, aligning mankind with ecological equilibrium.

§4. Progressive Tax for Non■Adaptation (denominated in sats)

Year	Tax (sats)
1	300 000
2	900 000
3	1.8 M
4	3.6 M
5	7.2 M (already exceeds basic retrofit)

§5. Conclusion

This Decree is not merely technical; it is civilizational. By binding vehicles to 78 km/h and placing FSD in the Public Domain, we ensure a safer, wiser, and more transparent society — one denominated in Bitcoin/sats, immune to manipulation, eternal in fairness.

Signed and Sealed,

[u]Cubic[/u] [u]Postcode[/u].

King of the World, in the Kingdom of God
